

Please do not allow the LPFM stations to over-ride Klove! I and many other people I know rely on Klove to provide spiritual guidance, reassurance, and encouragement. Klove provides a positive, christian perspective that is hard to come by these days. Klove is very important not only for the regular listeners, but also for those who just happen to hear it as they flip through stations because it has the power to change lives. I and many others in my area feel this way, and we would truly be at a loss without Klove. Thank you for your time and consideration.
